

What is the key to a full life?

A full life means that you are able to explore your dreams involving family, friends, community, work, and more.

MARYLAND DEPARTMENT OF HEALTH
Developmental Disabilities Administration

The Council on
Quality and Leadership

The key to a full life is that you are empowered to achieve your goals.

Supported

Discovery

People will talk to you about your life and goals you want to achieve.

Supports

You will work with staff on supports to help you achieve goals.

Outcomes

The outcomes of your goals will be reviewed and celebrated.

Network Accreditation

This is a process to improve supports that you receive so you can live a full life. It uses tools to find out how your life is going, what is important to you, and how to make those things happen. Network Accreditation is focused on results — the outcomes that supports have on your life.
