Vision

A world of dignity, opportunity, and community for **all** people.

Mission

CQL is dedicated to the definition, measurement, and improvement of **personal** quality of life.

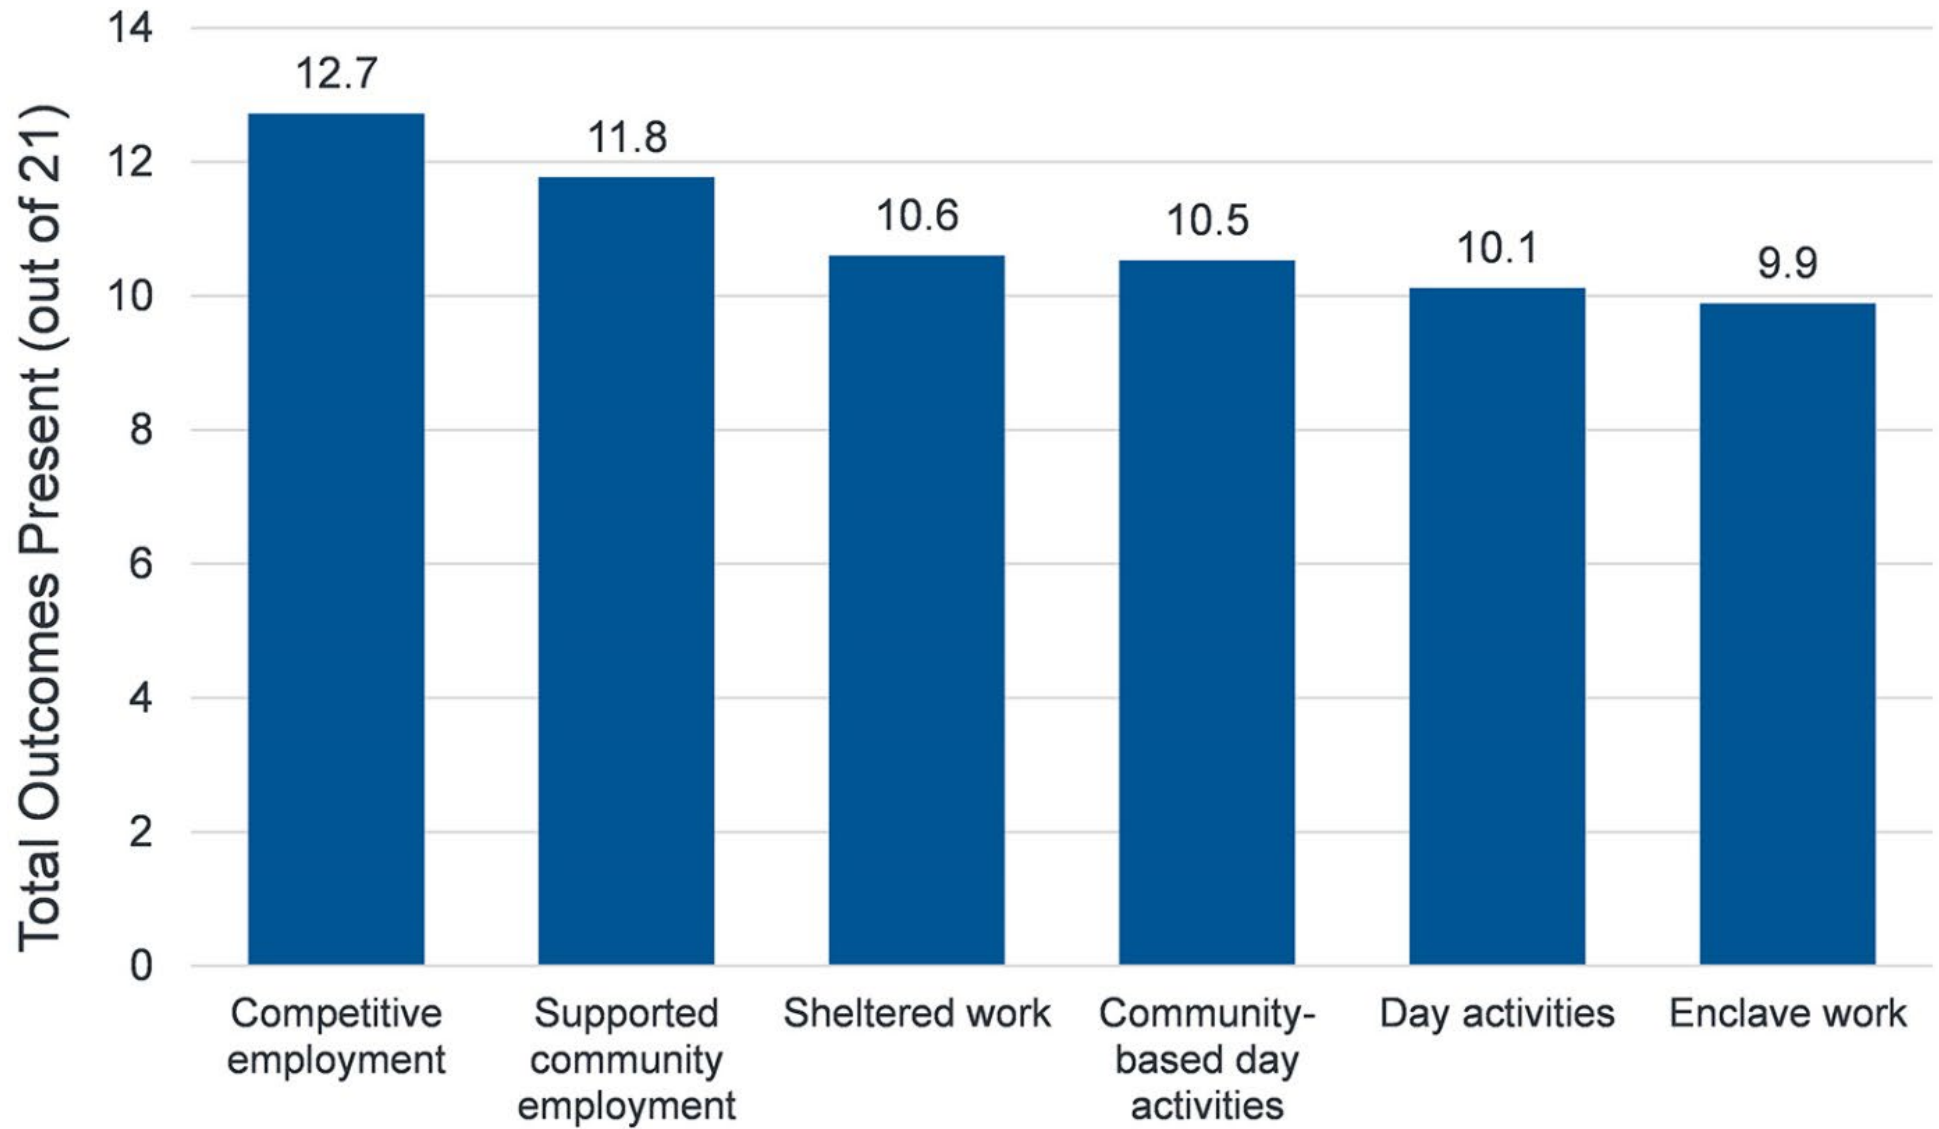

What day services and supports were provided by your organization **prior to this transformation?**

What do your day
services and supports
look like now?

Why did you decide to transform your day services to more **individualized, community-based** settings?

What **challenges** did you encounter along this journey?

How did you **overcome**
these challenges?

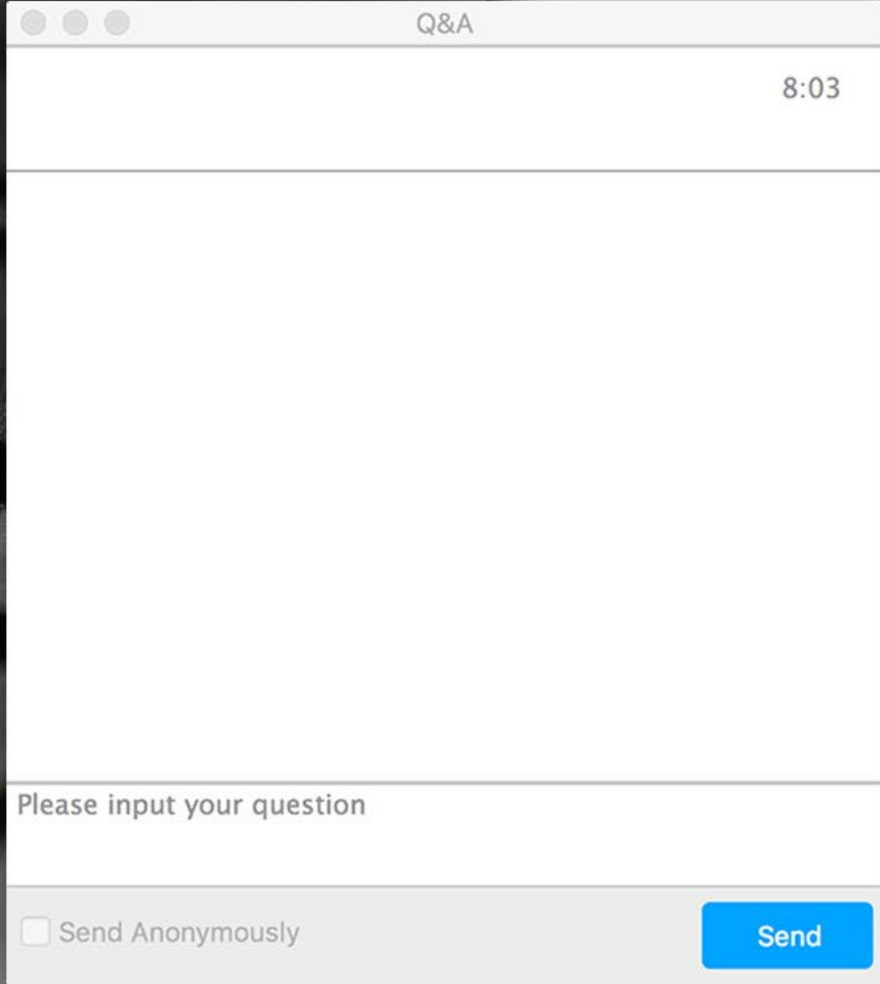

How do you **customize your day services** to ensure that they are meaningful for all people, including those who require a greater amount of supports?

How did you **communicate to and involve** people, families, staff, and other stakeholders as you facilitated this transition?

Do you have any other **suggestions or advice** for organizations that are considering a transition of their facility-based day service programs?
